EPA Rebuttal - Enc 3 Lakes .pdf

Hi Tina;

I know you will know this so hope you can point me where to go ASAP.

I need to use some of Colorado's endpoints they have in rule as guides for the endpoints we may use to establish nutrient standards on Canyon Ferry Lake. I found a great table for Warm Water Colorado lakes with EPA's recommendations (See attached page 2). Given the type of reservoir Canyon Ferry is, would those apply, or are other's better? Uses are drinking water, recreation, aquatic life.

Thanks a million, Mike

Please call if needed, I am hoping to wrap this up today.
